

Division AO

When to use:

1. Controlling Office receives Offshore EDI from Loading Office.

Example

- Loading Office = ASW HKG
- Controlling Office = ASW SUZ
- ASW HKG sends Offshore EDI to ASW SUZ under Division [AE]
- ASW SUZ receives shipment data under Division [AO]

2. Controlling Office is not the Handling Office at both Origin and Destination.

Example (a):

- Shipment ex Miami, USA to Qingdao, China
- Controlling Office = ASW LYG
- Destination Office = ASW TAO
- ASW TAO inputs shipment data under Division [AI]
- ASW LYG inputs shipment data under Division [AO] & Bill Type = **M-AWB / M-BILL**
(Shipment volume will be excluded in Corporate Report)

Example (b):

- Shipment ex Yokohama, Japan to Miami, USA
- Controlling Office = ASW LYG
- ASW LYG input shipment data under Division [AO]

Division AO & SO

何时使用:

1. Controlling Office 从 Loading Office 接收 Offshore EDI 数据。

例子

- Loading Office = ASW HKG
- Controlling Office = ASW SUZ
- ASW HKG 在 [AE] 部门发送 Offshore EDI 到 ASW SUZ
- ASW SUZ 在 [AO] 部门接收货运数据

2. Controlling Office 并不是装货港及到货港的操作分公司。

例子(a):

- 航线从美国迈阿密到中国青岛
- Controlling Office = ASW LYG
- Destination Office = ASW TAO
- ASW TAO 在 [AI] 部门输入货运数据
- ASW LYG 在 [AO] 部门输入货运数据, 及选择提单种类为 **M-AWB / M-BILL**
(此货量不计入 Corporate Report 内)

例子(b):

- 航线从日本横滨到美国迈阿密
- Controlling Office = ASW LYG
- ASW LYG 在 [AO] 部门输入货运数据
